

Analysis

Type SCI-02

With the Seli Communication Interface SCI-02, the measured values of the optical sensors STScell are converted to a standardized RS485 Modbus interface and the sensor is supplied with the necessary voltage.

Basic Features

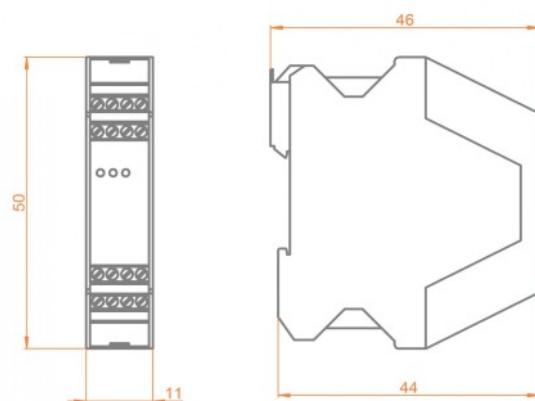

- ▶ standardized dimensions for DIN rail mounting
- ▶ galvanically isolated power supply for the sensor
- ▶ RS485 interface (galvanically isolated)
- ▶ compact version

Technical Features

- ▶ Housing: DIN rail housing 23mm
- ▶ Power supply: 24 V DC (12...36 V DC)
- ▶ Output: Modbus Rs485
- ▶ Input: Sensor STScell
- ▶ Accessories: connection cable 2m / 5m

Dimension

Ordercode

SCI-02

STScell communication interface to Modbus RS485 in 23mm DIN rail housing
