

Analysis

Type SCI-03

With the Seli Communication Interface SCI-03, the measured values of the optical sensors STScell are displayed shown on a graphic display and converted to a standardized 0/4...20 mA interface and the Sensor supplied with the necessary voltage.

Basic Features

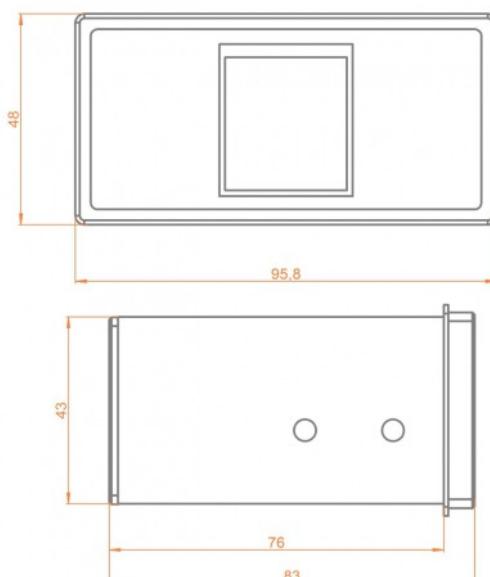

- ▶ standardized dimensions for DIN rail mounting
- ▶ compact version
- ▶ simple and quick sensor parameterization
- ▶ direct reading of the measurement data
- ▶ panel mount
- ▶ simple operation via touch display

Technical Features

- ▶ Housing: DIN rail housing 23mm
- ▶ Housing 48x95,8 mm
- ▶ Power supply 24 V DC (12...36 V DC)
- ▶ Output 0/4...20 mA
- ▶ limit contact: 24 V, 100 mA PNP
- ▶ alarm contact: 24 V, 100 mA PNP
- ▶ Input: Sensor STScell
- ▶ Display: 25x29mm (Touch-Display)
- ▶ Accessories: connection cable 2m / 5m
